Date when water and sewer service became available to the block where the Lot is located: \_\_\_\_\_

Setbacks: Front \_\_\_\_\_ Sides \_\_\_\_\_ Rear \_\_\_\_\_ ADM Approval/Denial Date \_\_\_\_\_ DCB Approval/ Denial Date \_\_\_\_\_

All requests require compliance with the Deed of Restrictions and the Design Control Board Criteria. Applicants acknowledge and agree to comply with DCB Provision and to uniform enforcement of the Provisions. The following DCB items are called to your attention, as they are most often points of conflict.

6.2 If the contact person or his or her name address or telephone number changes, the Applicant shall immediately notify the DCB in writing. Applications will be processed within a week excluding weekends and holidays or conditions of force majeure unless the request is considered to be presented for the Design Control Board on a case by case basis.

6.6.2.3 No deviation shall be permitted from the plans and specifications so approved, without further independent submission to and approval of such changes by the DCB.

7.12 Dust abatement and erosion control measures are the responsibility of the Applicant in all stages of construction.

7.14 All applicants for the construction of new residential units will provide house numerals in accordance with local requirements

9.1-9.3.1 Upon completion of a building site or section development, unless the requirements are met with natural vegetation, all building areas shall have the following minimum landscaping provided by the builder/developer according to a site plan which has been previously approved by the DCB. Lots must be fully sodded. **The Applicant is responsible for obtaining the necessary County, utility and other regulatory reviews and approvals required including, without limitation, all required building permits. Approval by the County, State or applicable utility does not waive the requirement for DCB approval.**

I have read the requirements set forth above and understand that compliance with the DCB Criteria is my/our responsibility without further notification from the Association of Poinciana Villages, Inc. (APV). APV will attempt to notify the builder of the violation, however, failure to do so does not remove any responsibility from the builder and APV is authorized to remedy the problem and expenses related to corrective action will be paid within five (5) days after presentation of the invoice to the builder unless other arrangements are made prior to the due date of the invoice.
